PROFESSIONAL SUMMARY

Passionate software engineer with 6+ years of experience building scalable web applications and microservices. Expert in Python, JavaScript, and cloud technologies. Strong background in backend development, API design, and database optimization. Proven track record of delivering high-quality solutions in fast-paced startup environments.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, SQL, Java, Go
Frameworks: FastAPI, Django, React, Node.js, Express, Flask
Databases: PostgreSQL, MongoDB, Redis, MySQL, Elasticsearch
Cloud & DevOps: AWS (EC2, S3, Lambda, RDS), Docker, Kubernetes, CI/CD, Jenkins
Tools: Git, Linux, Nginx, RabbitMQ, Celery, GraphQL
AI/ML: OpenAI API, TensorFlow, scikit-learn, pandas, NumPy

PROFESSIONAL EXPERIENCE

Senior Software Engineer | CloudStart Technologies | Austin, TX
June 2021 - Present

- Led development of document processing platform handling 1M+ documents monthly
- Architected microservices-based system using FastAPI, Celery, and PostgreSQL
- Implemented real-time WebSocket notifications reducing user wait time by 70%
- Integrated OpenAI API for intelligent document classification with 95% accuracy
- Optimized database queries resulting in 60% performance improvement
- Mentored 3 junior engineers and conducted code reviews

Software Engineer | DataFlow Solutions | Remote
March 2019 - May 2021

- Built RESTful APIs serving 500K+ daily requests with 99.9% uptime
- Developed React-based admin dashboard with real-time analytics
- Implemented OAuth2 authentication and role-based access control
- Created automated testing suite achieving 85% code coverage
- Reduced deployment time by 50% through CI/CD pipeline optimization

Junior Software Engineer | StartupHub Inc. | San Francisco, CA
July 2018 - February 2019

- Developed features for e-commerce platform using Django and React
- Integrated payment gateways (Stripe, PayPal) processing \$2M+ annually
- Implemented search functionality using Elasticsearch
- Collaborated with design team to improve user experience

EDUCATION

Bachelor of Science in Computer Science

University of Texas at Austin | 2014 - 2018

GPA: 3.8/4.0

CERTIFICATIONS

- AWS Certified Solutions Architect - Associate (2022)
- MongoDB Certified Developer (2021)

PROJECTS

Open Source Contributions:

- Contributor to FastAPI framework (20+ merged PRs)
- Maintained popular Python package with 5K+ downloads/month

Personal Projects:

- AI-Powered Recipe Generator - Web app using GPT-4 API (React, FastAPI)
- Real-time Chat Application - WebSocket-based messenger (Node.js, Socket.io)
- Stock Market Dashboard - Live data visualization (Python, Plotly)
